QUESTIONS AND RESPONSES

Within the photos you provided for the RFP, can you tell me which specific areas you are considering a beam gate?

The requirement/specification on page 20 are for a proposal for portable vehicle mitigation barriers, however if a configuration other than just barriers in a straight line such as the beam gate you are referencing is being submitted a diagram is required. I will also say that based upon the pictures attached the only places that a beam gate would even be an option/consideration would be locations 6,7,8, and 9. Those are Bollard A, B, C , and D.

Note: To qualify your proposal, of which this addendum becomes a part, this form must be completed and returned to this office with the proposal.
